

OFFSHORE MANUFACTURE

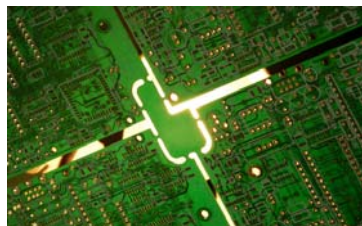

Why go to the Far East when we are already there?

With over a decade in partnership with some of the Far East's premier manufacturers, The Membrane Keyboard Company can offer an unparalleled level of service when dealing with Offshore supply.

We are firm believers that UK design is amongst the best in the world. By utilising our UK Design Team and coupled with our Offshore manufacturing partners, we will ensure you receive the best of both worlds for your user interface.

- UK design through to the proof stage from our factory in Fareham, Hampshire.
- Supply of Offshore produced samples prior to the volume manufacture of your product for approval.*
- Offshore outbound inspection and functional test.
- UK goods inwards inspection and functional test prior to final delivery.
- Realistic lead times.
- Project and Logistical management.

For high volume Offshore manufacturing, make The Membrane Keyboard Company your manufacturing partner.

**Supply of samples may not be available on certain products.*

These figures should be used as a general guide only and will vary according to design and product.
